

# LinkedIn Handleiding:

## Stap 1: Voeg gebruikers toe binnen de LinkedIn omgeving

- Ga naar [LinkedIn](#)
- Open het account en kies het gewenste bedrijf. (als je dit niet kan doen laat dit de beheerder van de pagina doen)

- Kies onderin voor **instellingen**.
- Kies voor **beheerders beheren**.
- Voeg een gebruiker toe doormiddel van **beheerder toevoegen**.

## Stap 2: App aanmaken binnen Developer LinkedIn

- Ga naar [Developer LinkedIn](#)
- Klik op **Create app**.
- Vul de onderstaande gegevens in van het bedrijf:
  1. App name
  2. LinkedIn page (welke je wilt koppelen)
  3. Privacy policy URL invullen. (eigen bedrijf)
  4. Logo
  5. Algemene voorwaarde accepteren
- Klik rechts onderin op **Create App**

---

Create an app ×

\* Indicates required

**App name \***

**LinkedIn Page \***  
 This action can't be undone once the app is saved.  
  
For Third Party/Enterprise Developers: The LinkedIn Company Page you select will be associated with your app. Verification can be done by a Page Admin. Please note this cannot be a member profile page.  
For Individual Developers: API products available to individual developers have a default Company page associated with them and you must select that default Company page to proceed.  
To learn more about the products and the default Company pages, click [here](#).

[+ Create a new LinkedIn Page](#)

**Privacy policy URL**

**App logo \***  
This is the logo displayed to users when they authorize with your app

Square image recommended. At least one dimension should be at least 100px.

---

**Legal agreement**

## Stap 3: Redirect aanmaken

- Ga naar [Developer LinkedIn](#)
- Klik op **auth**
- Vul onder **Authorized redirect URLs for you app** het onderstaande in:
  1. <https://app.digitalsignage-templates.com/linkedin/authorize/>
  2. <https://content.ds-templates.com/linkedin/authorize/>
  3. <https://cms.dst-connect.io/linkedin/authorize/>

IT Services and IT Consulting, 11-50 employees

[Verify](#)

This app is not verified as being associated with this company. [Learn more](#)

App name: DS Templates

Privacy policy URL: <https://www.digitalsignage-templates.com/privacy/>

App logo: 

This logo is displayed to users when they grant access to their data for your app.

### Managing settings for your app

Here, you can adjust your application settings.

App logo and privacy policy URL

The app logo and privacy policy URL entered will be shown to each user when your app requests access to their LinkedIn member data.

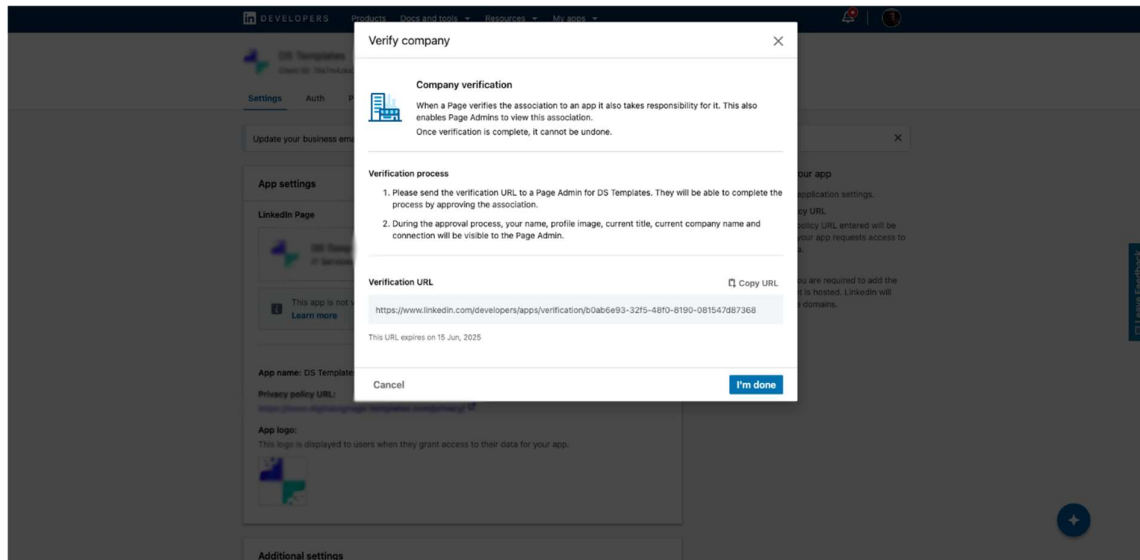

Widgets

If your app uses widgets you are required to add the domains where your widget is hosted. LinkedIn will validate and whitelist these domains.

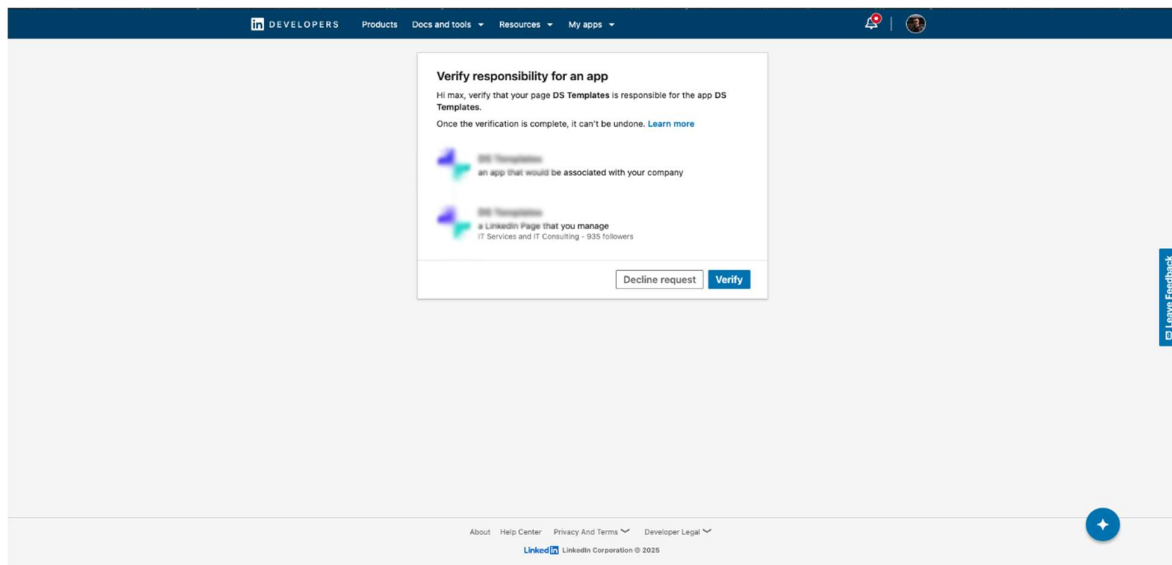

[Leave Feedback](#)

[+](#)

- Kopieer de URL die gegenereerd wordt en plak deze in een nieuwe tab. (hiervoor moet je wel de beheer zijn van de LinkedIn pagina)

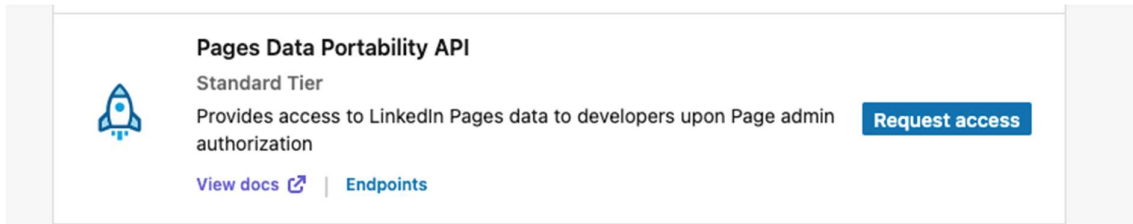

- Klik op **verify**

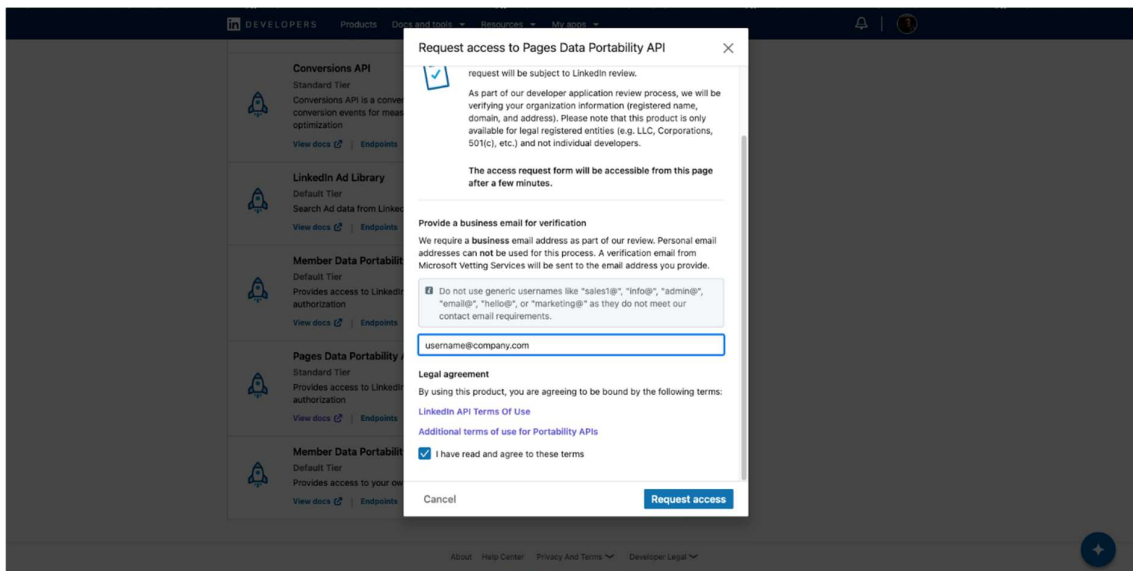

## Stap 5: Toevoegen Products API

- Ga terug naar Ga naar [Developer LinkedIn](#)
- Klik rechts bovenin op **My Apps**
- Klik de **app** aan
- Open **Products**
- Klik bij **Pages Data Portability API** op **Request access**

- Vul hier het bedrijfsmailadres in.

Optioneel:

- Het kan zijn dat de knop **Request access** grijs blijft. Controleer in de vorige stap of de verificatie correct is verlopen. Houd er rekening mee dat goedkeuring enkele dagen kan duren voor dat de **Request access** balk blauw wordt.

- Vul de onderstaande gegevens in

### LinkedIn Pages Data Portability API - Standard Tier Access Form

This access request form includes a series of questions about your company, the product that will be leveraging Pages Data Portability API access, and the use case you will be supporting with the Pages Data Portability APIs. #### Access

What use case does your organization plan to enable with the Pages Data Portability APIs?

We use narrowcasting screens in our office to share internal updates. Our narrowcasting provider has an integration with LinkedIn via an API. To display our LinkedIn posts on these screens, we need access to the Pages Data Portability API.

#### Thank you!

Thank you for submitting the Pages Data Portability API standard tier access form. We are working to review all submissions in a timely manner.

#### Important notes:

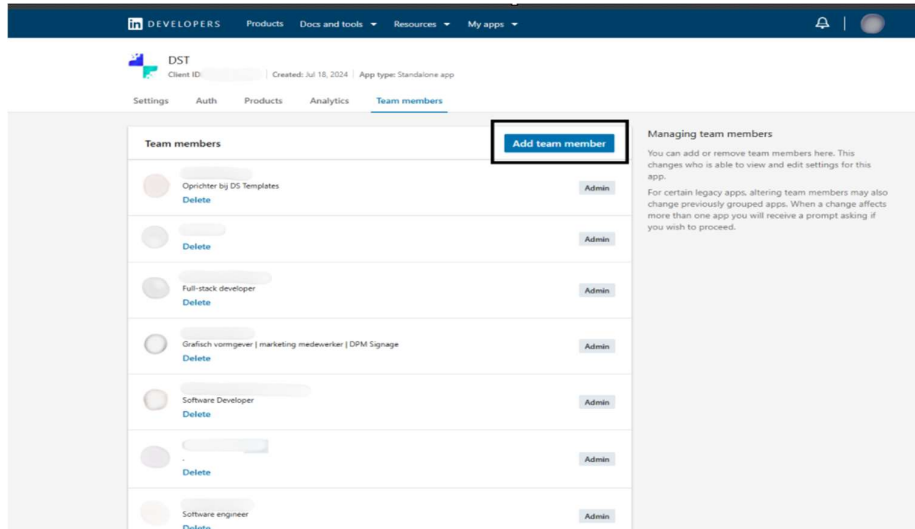

- Please keep an eye out for email verification. You will receive an email from Microsoft Vetting Services at your business email.
- LinkedIn will attempt to verify the business provided in this form.
- If necessary, we will reach out to you on your business email to request additional documentation. This may result in a delay in making a decision for your request.
- We will notify you by email once the review process is complete.

100% Survey Completion

- Het kan zijn dat LinkedIn hier 2 dagen over doet om goed te keuren.

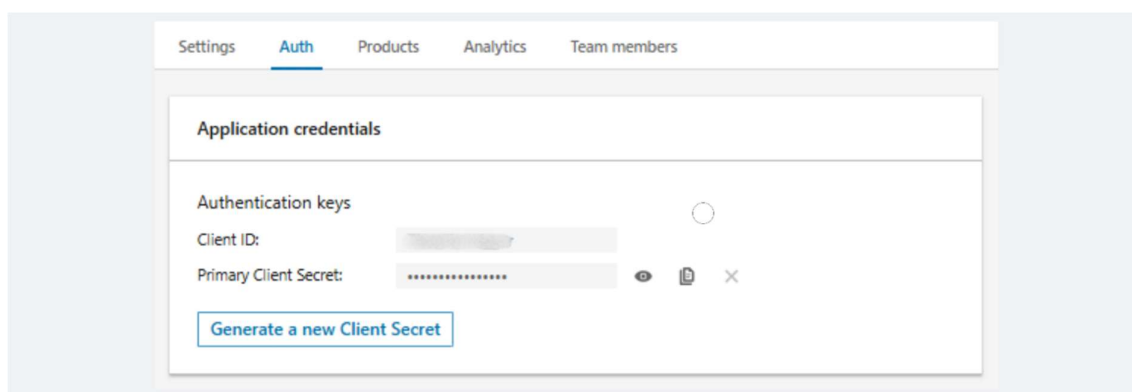

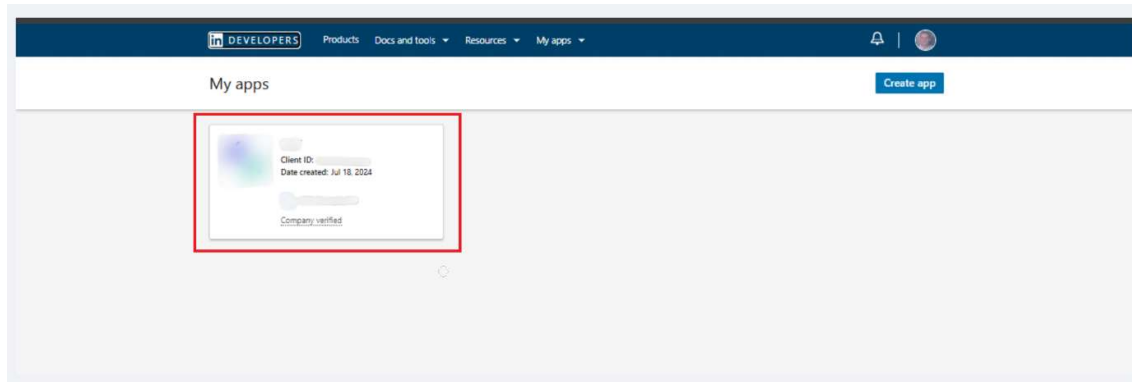

## Stap 6: Gebruikers toevoegen binnen LinkedIn developer.

- De beheerder van de LinkedIn pagina kan de gebruiker(s) toevoegen binnen **Add Team Members**.
- Om een gebruiker toe te voegen moet er wel een connectie zijn binnen LinkedIn

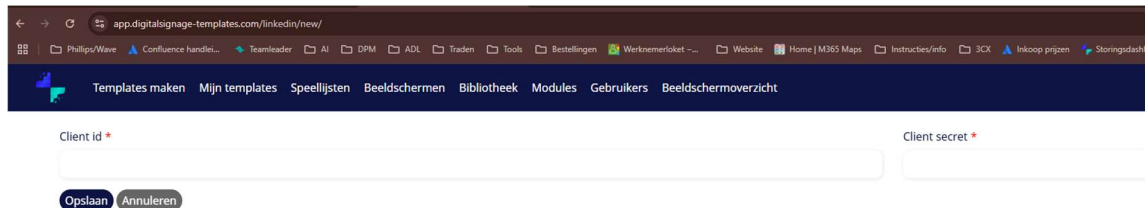

## Stap 7: Kopiëren ID en Key

- Kies **Auth**.
- Kopieer de **Client ID** en **Primary Client Secret**.

## Stap 8: Invullen Client ID en Client secret binnen DS Templates

- Ga naar [app.digitalsignage-templates.com](https://app.digitalsignage-templates.com)
- Kies voor **Modules**.
- Kies voor LinkedIn module.
- Kies voor LinkedIn connectie toevoegen.
- Voeg de **Client ID** en de **Client Secret** toe.
- Klik op opslaan.

The screenshot shows a web browser window with the URL [app.digitalsignage-templates.com/linkedin/new/](https://app.digitalsignage-templates.com/linkedin/new/). The page has a dark blue header with navigation links: 'Templates maken', 'Mijn templates', 'Speellijsten', 'Beeldschermen', 'Bibliotheek', 'Modules', 'Gebruikers', and 'Beeldschermoverzicht'. Below the header, there are two input fields: 'Client id \*' and 'Client secret \*'. At the bottom of the form, there are two buttons: 'Opslaan' and 'Annuleren'.

## Stap 9: Testen van de LinkedIn template

- Ga naar **Templates maken**.
- Zoek in het venster naar LinkedIn.
- Klik een template aan.

- Klik op **Kies een LinkedIn applicatie**
- Voeg de gewenste applicatie aan.
